The statement that Miss May Kemp, the efficient assistant at Dr. Day's dental parlors, was the doctor's sister is an error.

George W. Talbert, of Claremore, and Miss Abby Chamberlin, were married at Pheasant Hill last Friday evening, Rev. King officiating.

Silas Armstrong states that for the first time since the establishment of Quapaw agency there has been a lack of water this year. The big spring of dry and water is hauled from Lost creek.

THE CHIEFTAIN points with not a little pride to the Ratcliff ad. on first page. It was put into type in about seven hours—a feat possible in very few printing offices outside of the large cities.

Mr. Balentine headed a movement this week to renovate and overhaul the Presbyterian church building in this city. The walls will be given a covering of new paper, and the building will be relighted.

Bud Weldon, the invincible Port Smith Elevator man, was in the wreck at Hanson Saturday night in which eight men were killed. It is needless to state that he escaped to tell the tale.

Despite the unfavorable weather the band got something over ten dollars out of their ice cream social Tuesday night, given for their benefit by the ladies of the Congregational church.

The will of the late James A. Patterson, of Muskogee, who died some weeks since, will be contested by James Patterson of that town, who claims to be the only child of deceased. James is a mulatto.

Ell Bond was tried by Commissioner McGlasson last week for forgery and discharged. It was charged that he presented a bogus order at the mill and got 500 pounds of flour, the order purporting to be from Stann Miller.

The condition of Mrs. McNairn was such yesterday as to hold out very little hope for her family and friends. The funeral of her daughter, whose death was announced last Thursday morning, occurred the same afternoon.

There are no empty houses in Vinita, and if there were, there would be several people trying to rent each one of them. The greatest demand for houses comes from country people who are moving to town to get in reach of the schools.

Capt. Cobb's racing outfit got home from Springfield Thursday. The captain has discovered that all the mean men do not live in Vinita, by a whole lot. His horse was set back to third place in a race, for running, when in fact he lost instead of gained by the break.

D. H. Wilson and his uncle, Dr. Cave, returned from Arkansas some days ago and the latter has gone to his home in Kansas. The gentlemen went over to look into the lead and zinc prospects of the country east of Eureka Springs and secured several claims.

Judge Thomas has set aside the verdict of murder in the first degree found at the last term of the Muskogee court against C. A. Brown and ordered a new trial. The ground for this action was the failure of the government to prove the citizenship of either party.

It is reported that the city calaboose, in which government prisoners are at times held, is in a terribly filthy condition. The marshal should direct an examination of the place and if such be the facts keep his prisoners elsewhere until the place is cleaned up thoroughly.

Reports of prospective train robbers had the effect of putting the train guards back one evening last week. An effort was made to "flag" a passenger train one night below Checotah but the engineer would not stop. The section men had been previously taken in charge by the robbers.

Mrs. Carruth, who announced herself to speak for Whitaker's orphanage at the M. E. church twice last Sunday struck a "frost" after all and did not stay until Sunday. The officials of the church know Whitaker and did not care to have anyone advocating any of his schemes in their house.

Enquiry has been made regarding Tom Burnett, a butcher killed by a horse kick at Chelsea several years ago and who once lived at Vinita. It is said he joined the Knights and Ladies of the Fireside, an insurance organization, in this city. Daniels & Comfort, 517 Minnesota Ave., Kansas City, desire information.

Editor Clawson, of the Chelsea Reporter, was in the metropolis Monday on business. Clawson declares he is not the press correspondent who has been sending so many "cock and bull" stories lately from Chelsea to the city papers, and we don't think he is either. But then, he ought to help smoke out the faker, whoever he is.

ANGELIST KILGORE will be a singer in a series of meetings at the Methodist church in this city next Sunday, to which Rev. M. L. Butler, the pastor, has extended an invitation to all christian people in the city to unite in one grand effort to have a good meeting. A noted singer will accompany Mr. Kilgore to take charge of and lead the music throughout the progress of the meetings.

IT IS NOW STATED that the railroad of Queen Zolla, the gypsy, on the finances of the colored people far exceeded the statement contained in the CHIEFTAIN's last week. Instead of losing \$180, it is now said. Mose Whitmore gave the woman \$1000, "to sleep on." Buckner's folks \$450 and Ellen Blackwell \$5. The old lady evidently liked the bed so well that she is still "sleeping on it" and it looks as though she would continue to do so.

WHITAKER'S orphan home at Pryor Creek and Wolfe's orphanage a few miles west of this city should form a partnership and call the combination "Squeezers' Yorkshire School." Two such philanthropists as Whitaker and Wolfe would make a strong combination, and as both are seeking the same end we see no good reason why they should not unite their forces in one grand effort to gather in all the orphans of every color in this country.

SABINE PASS and Port Arthur, Gulf terminals of the Pittsburg & Gulf railway, were visited by a hurricane Sunday evening that did great damage and caused some loss of life. At the former place it is reported that waters from the gulf were blown up over the townsite to a depth of six feet. As Charles Chesney, Mrs. Milford's brother, resides at Sabine, considerable uneasiness was felt until a dispatch was received from Kansas City stating no injury to him was reported.

EDMUND AND ED FRENCH were given each 30 days in jail and \$25 fine Tuesday, by Commissioner McGlasson, for shooting three steers that had gotten through a three wire fence into their corn field. Also a judgment was entered against them for the sum of \$180, or three times the value of the cattle killed, for the benefit of the owner. The wholesale and promiscuous killing of stock by farmers who try to raise a crop with a two or three wire fence would cease were there a few prosecutions like the above.

THE LATEST CHAPTER in the Joe Merrell case was finished at the Delaware court this week, and doubtless a number of prominent people in this city can now breathe a sigh of relief. It will be remembered that Merrell was charged with burglarizing the clerk's office of Delaware district some two years ago, and after being arrested escaped from the officers and fled to Colorado where he remained, evidently till the "coast was clear" at home. Last spring he was acquitted in Judge Buffington's court of the charge of breaking into the aforesaid office with a hatchet. This week he was also acquitted of the charge of abstracting papers from said office. This probably ends a matter about which a great deal has been said, and a great deal of noise made.

The dirtiest time of the season.

A GOOD MANY of our people took occasion Friday night to spend a pleasant hour or two at W. R. Badgett's opening. The happy surroundings, full moon, music of the band and agreeable company combined to make Mr. Badgett's efforts a success in every particular. The store was handsomely decorated and the display of goods very attractive; particularly was this the case in the queensware department. There is not a town on the M. & K. T. railroad in the Indian Territory whose stores equal those of Vinita in quality of goods kept.

M. MILLS was arrested recently on complaint of Swafford Bros. for secreting property, they alleging him to be a partner of Mills Bros. Last week, after having spent four days in jail and several others in the custody of the marshal, Mills was discharged on an order of Judge Thomas, before whom the matter was taken on a writ of habeas corpus. The defendant satisfied the court that he was not a partner in the firm of Mills Bros. and had not been for thirty days previous to the time Lee Mills gave the Mills Bros. note, which was the basis of the trouble. Lee Mills disappeared immediately after the election and has not been seen since.

HAWKINS & LOOMIS' dog and pony show gave their first exhibition last evening on East Johnson avenue to a large and appreciative audience. The ponies are very well trained and did a large number of difficult feats, from waiting to picking out a number or colors called for by some one in the audience, while the dogs rode hurdle races on the backs of ponies, walked tight ropes and did a great many more entertaining tricks. The performance was an excellent one and will be repeated this evening and tomorrow evening with a matinee tomorrow afternoon.—Parsons Sun.

They open at Vinita, Friday, Sept. 17th for two days.

TWO FELLOWS named Charley Rider and Bud Ellis were arrested at the Henderson house Tuesday night charged with introducing whiskey. When Mr. Henderson went to light up the dining room at his hotel in the evening he struck a match and Ellis, who was seated at a table, drew a pistol and remarked that he would light up for him and ordered Henderson to be seated. Shortly afterward it was discovered that the negro porter was drunk and had gotten his liquor from a valise owned by Ellis or Rider, brought in on the noon Frisco train. The valise was carried out by one of them and hid. The men were then taken into custody but have not had a hearing yet.

THE STATEMENT made in this paper last week detailing the controversy in the city council the previous Saturday night was incorrect in some respects. Our information was that the city marshal had collected the circus license amounting to \$50, in cash, and put the same in his pocket and turned in the amount in city scrip. The facts are that Mayor Tom Buffington collected the \$50 circus license and turned it over to the marshal and furnished a portion of the city scrip paid in by the marshal in lieu of it. The controversy in the city council was not over the matter of collecting the circus license, but arose over the question as to whether or not the marshal was to continue to receive ten per cent of the delinquent taxes collected. A vote was finally taken and three members voted against allowing the marshal ten per cent of said taxes, and it now transpires that it was simply a question of law that should have been settled promptly by a ruling of the mayor, which would have dispensed with any further debate. The supposition is that the fur will fly at the next meeting, as there still exists a difference of opinion on the matters in controversy.

THE TRIAL of a case this week before Judge McClure against John M. Ingram, city marshal of Pryor Creek, charged with disturbing the peace of Mrs. Sarah Seely, has attracted considerable attention, and about all the population of the little city twenty-five miles down the "Katy" seem to be in attendance as witnesses or spectators. On the second of the present month Ingram went to the home of Mrs. Seely about nine in the evening for the purpose of catching an old gentleman named Milligan there. Ingram claimed that Mrs. Seely was conducting a house of prostitution, and wanted to arrest Milligan. When Ingram found that his man was in the house he tore off the wire screen from one of the windows and sprang into the building. Milligan seized a pole used for punching cattle in cars and tried to brain the marshal who stopped him by drawing his revolver and threatening to shoot. The woman and her two children jumped from a window and escaped, and pandemonium seemed to reign for awhile. Milligan claims that the woman is all right and that he was courting her. There was no lack of witnesses to prove every proposition. It seemed to be a general row in which the whole community was dragged in, the unwillingly perhaps.
